Professional profile

Being an experienced high-tech professional with 15 years of experience in the industry, I'm inquisitive and resourceful, able to instinctively understand of working system and strip things down to basics to find out how it works. Able to build partnerships, work collaboratively with engineers, vendors, and business teams to ensure successful completion of a project during its lifecycle. Flexible to work in both fast and slow-paced environments. Passionate about learning and self-motivated.

Achievements

Hyundai Glovis — employee of the year (2018, 2019).

Geekbrains University — teachers assistant from January 2022 (volunteering).
