Professional profile

I am an experienced IT professional with over 10 years of experience in the industry. Have an "IT intuition" that helps me quickly understand any software product. Able to coordinate teams, build partnerships, and work collaboratively with engineers, vendors, and business teams to ensure successful completion of a project. Flexible to work in both fast and slow-paced environments. Currently, I'm studying at the Geekbrains University aiming to switch the domain to the AI/ML.

Achievements

Hyundai Glovis — employee of the year (2018, 2019).

Geekbrains University — teachers assistant from January 2022 (volunteering).
